

## Binder Labortechnik

### Disc Punch for 2,3 und 3 mm Specimen:

The sample cutter is suitable for punching for 2, 3 and 3 mm samples.

This precision punch allows sample slices with thicknesses between 10  $\mu\text{m}$  and 200  $\mu\text{m}$  to cut out. Structural transformation in the central area of the sample can be prevented by the concave stamp

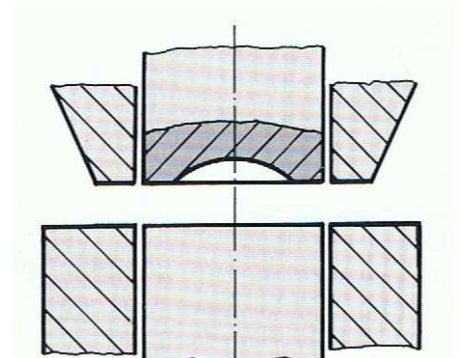

Dimensions:

Length: 145 mm

Width: 60 mm

Height: 145 mm

Weight: 860 g

.) Order number: DP\_2, 3 (for 2,3 mm sample diameter)

DP\_3,0 (for 3,0 mm sample diameter)
